

POOL CONTRACTORS
SWIMMING POOL CODES

Guidelines for inspections:

Step 1:

- A. Mississippi One Call for line locations (811)
- B. Supply copy of survey for easement locations
- C. Electrical, plumbing, and fence permits, whichever apply must be pulled before a pool permit will be issued.
- D. Must supply copy of pool plans and specifications to include plot plan with pool location and dimensions.

Step 2: Locations of Pools

- A. Minimum 5 feet from side property line
- B. Minimum 5 feet from rear property line
- C. Minimum 10 feet from house without special permission.
- D. Pool cannot be placed on any easement.
- E. Minimum 5 feet from underground power and 10 feet vertical, from any overhead power service drop.

Step 3: Inspections

- A. Above ground pools—Final
 - a. Final of pool
 - b. Final on all electrical work (trench can be called early)
 - c. Bond on pool frame to motor
 - d. G.F.I. on receptacle for motor (5 feet from water edge)
 - e. 4-foot minimum fence around pool or yard with latching gate and self-closing gate.
 - f. Must comply 2006 International Building Code Section 3109.
