\*\* At this time the Mayor called on Bob Baber, Interim Planning Director for Case No. 2025 – Presentation by applicant and possible rescission or amendment of Order #03-04-21 granting a variance for a metal building located at Bullfrog Corner Pawn. (Request by Alderman Roberts). Mr. Bob Barber stated that he reviewed Case No. 2025 and the actions of the Board to deny certain aspects of a variance but offered a way in which the building could receive a permit and become compliant with building code. Mr. Danny Metcalf stated he would like to see what he could do to keep the building since he was approved by someone from the City last year when the City was shut down. Mr. Metcalf stated he would have never paid the money to put up a building if he had to come back and tear it down. Mr. Metcalf stated he had a discussion with Alderman Charlie Roberts and that Charlie Roberts had called someone at the City but he could not hear the conversation or who he spoke with. Mr. Metcalf stated Charlie told him to go ahead and put it up and everything would be taken care of, and now he is here. Mr. Metcalf stated it is not just a storage building because they use it to safely unload guns, ammo, and jewelry that are delivered. Mr. Metcalf stated he anticipated being number one in the State for gun sales. Mr. Metcalf stated they do a lot for the community by bringing people in from all around Mississippi, north of Mississippi, and Arkansas that buy gas and food in Horn Lake. Mr. Metcalf stated he is proud to be in Horn Lake and would like permission to keep his building since he was approved by someone that represents the City. Alderman Jones stated that in the past the Board has worked with Mr. Metcalf to make changes to Abe's building to have the gun store but you should know that you have to come to the Board for approval. Alderman Jones stated you should never listen to just one person on the Board because that person (*Alderman Roberts*) does not know what he is talking about and he (*Alderman Roberts*) does not represent this City. Mr. Metcalf stated the City was closed. Alderman Jones stated that Mr. Metcalf should have called his Alderman or the Mayor that runs the day-to-day. Alderman Jones stated that nobody on this Board can give you permission to do something and get away with it. Alderman Jones stated at the last meeting the Board came up with a solution to allow Mr. Metcalf to keep the building but it would not be able to be attached to the existing building just on the say-so of someone (*Alderman Roberts*) without the whole Board's approval. Alderman Jones stated Mr. Metcalf should sue him (*Alderman Roberts*) to get his money back because he (*Alderman Roberts*) did you wrong and he (*Alderman Roberts*) does not have the authority. Mr. Metcalf stated the metal building was not bolted to the existing building. Alderman Jones shared the building code states it must be 10 feet away from the other building so it is out of Code and he (*Alderman Roberts*) did not have the right to tell you to put the storage building there. Alderman Jones stated if it is not attached then it can be moved because if it stays Abe will have to bring the whole building up to code and you or Abe will not want that expense. Alderman Jones stated that the Board wants the business in Horn Lake and doesn't want the business to move but they cannot let this happen. Mr. Metcalf stated he owns a shopping center in Southaven and it would not be hard to move there but he wants to stay in Horn Lake. Alderman Jones stated the City would love to have you stay but we cannot allow everyone to break the rules and get away. Mr. Metcalf stated he does not break rules, he asked permission, and he was given permission. Alderman Jones stated you were given permission by someone who does not have the authority to give permission. Mr. Metcalf stated he did not know he (*Alderman Roberts*) could not give permission and Mr. Metcalf asked Alderman Roberts if he draws a paycheck from the City. Alderman Guice asked Mr. Metcalf to explain when Alderman Roberts talked to him. Mr. Metcalf stated it was last year he told him he wanted to put up a building, drew him (*Alderman Roberts*) a sketch, and he said it wouldn't be a problem so he ordered the building. Mr. Metcalf stated when the building came in and it was time for a permit for the building, the planning department was closed so he (*Alderman Roberts*) made a phone call while in my office and said it was ok. Alderman Guice asked Alderman Roberts what happened with this phone call. Alderman Roberts said he was in the parking lot and Mr. Metcalf was there to get a permit but the planning department was closed. Alderman Roberts stated he called the City building inspector and shared Mr. Metcalf

had been to City Hall a couple times to get a permit but it was closed for COVID. Alderman Roberts stated that the words that came out of the man's (*Building Inspector*) mouth was "if we are closed, or he cannot get a permit, they will not make him tear it down, he should be ok". Alderman Roberts stated it was left at that and Mr. Metcalf made another attempt to get a permit but City Hall was closed again for COVID and there wasn't anybody over there. Alderman Roberts stated Mr. Danny tried to schedule this 6-8 weeks out and get it before the Board and made several attempt to get a permit to get it up but could not and that Friday around 8 months ago, they put up the building. Alderman Guice stated the issue is the City has policies, laws, and ordinances that need to be followed. Alderman Roberts stated just like the fireworks stand that went up unauthorized in your Ward. Alderman Guice stated the fireworks stand is not related to this case. Alderman Guice stated this man is trying to operate a business and go by the law and he has a City official (*Alderman Roberts*) making phone calls and telling him it is ok to violate the laws you (*Alderman Roberts*) should know we have in place. Alderman Guice stated this is a problem because Mr. Metcalf spent a lot of money to build that thinking he had gone through the process and if we have a city employee telling him he can violate the law and they won't make you tear it down, this is a problem. Alderman Guice stated we would not be here today if he had been told the correct actions and followed the correct action. Alderman Guice stated even if the Planning Commission had denied this, he could have come before the Board and we could have approved or denied as we have done before. Alderman Guice stated there is a process to follow and now Mr. Metcalf is facing the loss of some money because was getting bad information. Alderman Guice stated the big problem is the fire code with that building being attached. Mr. Metcalf stated a Fireman came down and told him what to do and he did it by putting up exit signs and lights. Mr. Metcalf stated he has been told so many things to do and he would comply but does know what to do now. Alderman Bledsoe stated this is a great business and hates he was told the wrong thing but the Mayor should have been told and you could have gotten the right information. Alderman Bledsoe stated because of fire code we could not let this go without sprinklers. Alderman Bledsoe stated without sprinklers, if someone got injured or killed, the City may face some liability. Mr. Metcalf stated he invited the fire inspector to come look and it is not a step down to the building and nothing is dangerous about it. Alderman Bledsoe stated years ago Mr. Abe wanted to do some improvements to the building and he was told the building would have to be sprinkled so he decided not to do it. Alderman Bostick asked Chief Linville if anything has changed since the last meeting concerning this building or discussions on fire code recommendations to allow the building to be kept there. Chief Linville stated they have not had discussions since the last meeting but what Mr. Danny is referring to is he invited me up to look at the building. Chief Linville stated he told Mr. Danny before anything could be done he would have to get a proper permit from the Planning Department because Ethan said a permit had not been requested. Chief Linville stated Ethan asked the City Fire Inspector and Building Inspector to go look at the building. Chief Linville stated a big concern was exiting the back of a building and not being able to see to get out. Chief Linville stated Mr. Metcalf was told they had to be able to see and have panic hardware on the doors but Chief Linville asked them not to tell Mr. Metcalf to do anything else until they have approval. Chief Linville stated he told Mr. Metcalf the code/ordinances/design by which the building would have to follow in order to stay but not to do anything until the Board approves what he can/cannot do. Chief Linville stated if the building was allowed to stay there would have to be things done to make it comply but did not want to do any without the Board's approval. Alderman Bostick stated that at the last meeting Chief Linville stated it had to be moved or it had to be sprinkled. Chief Linville stated that is correct from what is in the Ordinance he had given everyone. Chief Linville stated the only thing done in the Planning Department is the \$500.00 application for a variance and the permit fee is still not paid. Chief Linville stated by code the building is 23,000 square feet and should be sprinkled if improvements are done. Chief Linville stated that is why Mr. Abe did not add on years ago and just built a separate building to avoid having to sprinkle the whole building. Chief Linville shared the Ordinance states any

commercial building over 8,000 square feet must be sprinkled according to the 2012 code book. Chief Linville stated nothing else needs to be done on/with the building until the Board hears the appeal and approves or deny a variance. Chief Linville stated other than being a metal building and it being attached, it needs to have proper exits, ADA compliant for those in a wheelchair to be able to get out of the building if the front door is blocked with a fire, panic hardware on all doors, but the permit has to come first before all the building requirements could be discussed. Alderman Bostick asked the City Attorney if the Board could change a requirement stated in the fire code. Billy Campbell shared the fire code states the board has no authority to waive requirements of the fire code. Chief Linville stated even though this building was built in 1979 it cannot be grandfathered into the old codes since the City has adopted the International Fire and Building Codes and would have to be sprinkled since the metal addition is attached. Alderman White asked if there is a difference since this is used for storage and the customers are not allowed to enter. Chief Linville stated that is the only rear exit on that side of the building for customers to make an emergency exit and it is not ADA compliant. Alderman White asked if a new rear exit was installed, would that comply with the code. Mr. Metcalf stated he has an handicapped employee that enters the building from the rear doors. Chief Linville stated that rear exit must meet the fire/building code requirements as an emergency exit in case of a fire or a car crashes through the front door. Chief Linville stated he has informed the fire inspector not to make any more recommendations until the Board rules on this matter. Chief Linville agreed he would meet with Mr. Danny only if the building inspector, fire inspector, and Bob Barber could all meet at Bullfrog Pawn to review all the building/fire codes/requirements. Chief Linville further stated the Fire Department typically does not inspect metal storage building unless somehow it is allowed to remain attached. Alderman Roberts asked if we needed a motion to move this issue to the April 20<sup>th</sup> Mayor and Board of Alderman meeting and it did not need a motion. Alderman Bostick questioned and received confirmation that the approved board order from the last meeting gives Mr. Metcalf 31 days to move the metal building and be compliant with the fire/building code. Alderwoman Johnson stated she would like Chief Linville to go down with his group and meet with Mr. Metcalf at the location. Alderwoman Johnson apologized that he spent so much money and was given mis-information but we make decisions as a Board. Alderman Guice stated that normally if someone put up a building without the proper procedure it would have to come down but, if they are given bad information we need to have all the people necessary to look at the situation and see if there is a way to get it in compliance or make an exception since bad information was given. Alderman Bledsoe stated everything needs to go through the Mayor so we avoid issues again. No decision took place on this matter, other than it is to be continued to the April 20, 2021 Mayor and Board of Aldermen meeting.

**Order to approve supplemental agreement No. 1**

Be It Ordered:

By the Mayor and Board of Aldermen to approve Supplemental Agreement No. 1 with Ferrell Paving, Inc. for the Horn Lake Road Mill and Overlay project, adding \$12,940.00 to the contract amount of \$1,847,769.10 for a new contract amount of \$1,860,709.10, and to the extent such agreement may constitute a change order, finding the additional cost/work is necessary and incidental to the completion of the project as originally bid, is not outside the scope of the original contract, is commercially reasonable, and that the agreement for the additional cost/work is not being made to circumvent the public purchasing statutes.

Said motion was made by Alderman Roberts and seconded by Alderman Bledsoe.  
A roll call vote was taken with the following results:

Ayes: Alderman White, Alderman Bledsoe, Alderman Guice, Alderman Bostick, Alderman Jones, Alderman Johnson, and Alderman Roberts.

Nays: None.
