## RESIDENTIAL BUILDING PERMIT APPLICATION

Please submit a drawing of the project with this application. All new construction and exterior building additions require a site plan drawing. Interior building projects only require interior plans. For administrative purposes, any building project within 10 feet of a house is considered a building addition to that house. This permit application must be approved before building can begin. After the project is finished, the applicant must request an inspection to ensure it was properly built as permitted.

Brief Description of Project: \_\_\_\_\_

Is this project for a single-family house? \_\_\_\_\_. If answering YES: Are you the homeowner of this single-family house and wishing to do the work yourself, without a contractor? \_\_\_\_\_. If answering YES to this as well, sign and print your name in the box below to accept responsibility for the work:

My signature here indicates that I am the homeowner and will be doing the work myself. I will not hire a contractor or any person to do this work. Any help I receive will be performed under my supervision. I will build this according to all applicable codes that the City of Horn Lake has adopted. I will take all responsibility for the quality of this construction. If the building inspector determines that I do not possess the necessary skills to build this project properly, then I will be ordered to stop working and will be required to hire a contractor that holds a license with the City of Horn Lake.
